

VIZ-A-THON:

Hello, data enthusiasts, 🧑

I assume you might have already started prepping yourselves for the amazing race of creativity that's coming your way!

 VIZ-A-THON 

Similar to traditional hackathons, Viz-a-thon is a college-level hackathon but with a small twist. 🌀 A hackathon of data visualizations – where we gather 🟠, understand 🧐, process 🧠, and visualize data .

To make things easier, and set a baseline for all, we will be providing the dataset. All you have to do is, put your creative minds to it and make an artistic, yet easily understandable visualization.

Well, looks like that's enough bombs for the day!! 💣

Wanna know about what we have in store for you? 😊 😊

Stay tuned ... ⌚
